

Quality and Environmental Scope & Policy

Uniplast Ltd provides its long-standing clients and potential customers with plastic solutions including

- Injection Moulding Processes,
- PAD Printing,
- Sorting Processes
- Assembly Processes
- Packaging Operations

in the most efficient and economical manner.

Quality Policy:

Our strategic quality objective is to achieve and enhance customer satisfaction by delivering consistent product and effective service throughout in a profitable manner. We are fully committed to achieve this and continually improve our system in line with all relevant requirements including those related to ISO 9001:2015. We do this by assessing the context and creating controls, procedures and set objectives to counteract risks and ensure that we deliver a consistent product and service. Uniplast is fully committed to ensure that this Quality Policy is communicated, understood and applied by our people.

Environmental Policy:

Uniplast Ltd, is committed to an ongoing effort to continually improve its internal processes to minimize environmental impact and enhance environmental performance. Consequently, it is the company's policy to

- comply with all environmental laws and regulations,
- continually show a commitment to the protection of the environment,
- encourage concern and respect for the environment and train staff to embed the right level of awareness to enhance effective policy adoption,
- promote the principles of reduce, re-use and recycle across the organisation,
- communicate its Environmental Policy to all its stakeholders including employees and the general public upon request,
- target incident prevention and adequate control of waste and energy consumption and respond quickly and effectively to incidents resulting from its operations cooperating with competent authorities and key external stakeholders.
